SUMMARY

Mobile Application Developer with 3+ years of professional experience building and shipping 20+ production-grade Flutter and Native Android apps for clients across Egypt, Lebanon and the UAE. Specialized in Flutter with hands-on experience in RFID systems, Apple/Google Wallet integration, OCR, TFLite ML models and MDM solutions. Delivered enterprise-level projects for major clients including Unilever, Export Development Bank of Egypt and Abu Dhabi's Department of Culture and Tourism.

EXPERIENCE

Mobile Application Developer
SmartTechSys ↗
Built and shipped 20+ production mobile applications for clients across Egypt, Lebanon and UAE using Flutter and Native Android (Java/Kotlin). Projects span multiple industries including healthcare, logistics, fintech, real estate, and government sectors.
Key highlights:

- Developed enterprise Flutter apps for Unilever (sales management + warehouse inventory)
- Built RFID-based access control and Inventory systems for Alexandria Sporting Club, Arab Open University, Export Development Bank of Egypt, Beyti and more
- Integrated Apple Wallet & Google Wallet for digital card issuance
- Delivered a government app for Abu Dhabi's Department of Culture and Tourism
- Implemented OTA, OCR, TFLite ML models, and MDM solutions in production apps
